

Pressmatic Compact Lavatory Basin Tap

17160606

DESCRIPTION

Tap with vertical entry for installation on the table and hydromechanical drive by manual pressure.

TECHNOLOGY AND CHARACTERISTICS

Bi-nickel Chrome

High durability

ADVANTAGES

Hydro-mechanical activation with light manual pressure and automatic closure in about 6 seconds.

Practical system that ensures long service life, the deprecations resistance and greater hygiene: Once activated, the user no longer has contact with the product;

Supplied with constant flow restrictor;

The aerator, besides providing guaranteed savings on water, it avoids splashing and more comfortable to handle.

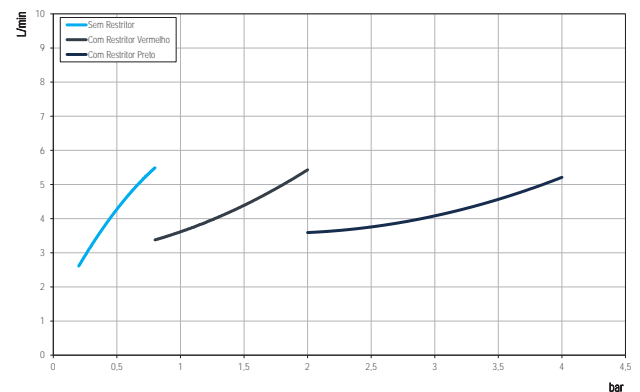

Bi-nickel chrome plated, providing long-lasting durability and higher resistance to corrosion, maintaining the product beautiful and glossy much longer.
