

## Multipurpose Extensible Lavatory Trap 72 cm

Code 009796526

### DESCRIPTION

The main benefits of the universal siphon are the quality, durability and resistance of the piece. This product serves to guarantee the perfect flow of water and is compatible with water outlet valves for the kitchen, sink and tank.

### TECHNOLOGY AND CHARACTERISTICS

High  
durability

### WARRANTY

Call Docol Authorized Distributor in your country.

### ADVANTAGES

**Compatibility with Universal VSAs** for kitchens, bathrooms and laundries.

**Does not use sealing tape:** the product is equipped with sealing rings which do not require the use of sealing tape.

**72cm Length:** longer than the vast majority of lavatory traps on the market, which measure 66cm.

**Lock:** only one in the market with a device that guarantees the 5cm of water closure (requirement of the norm).

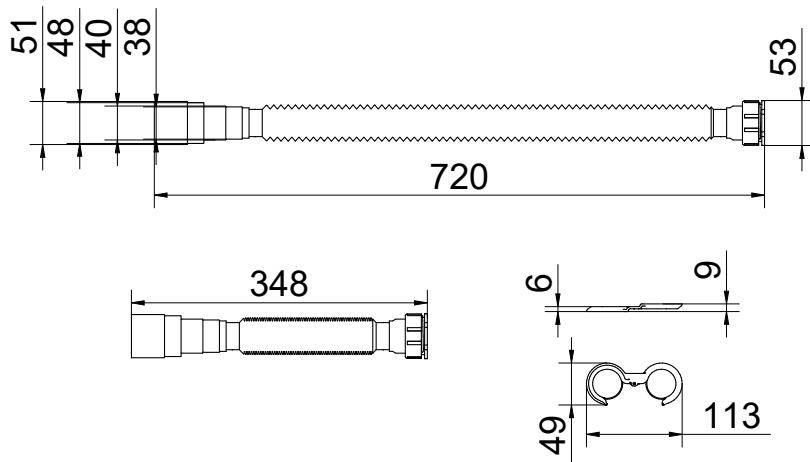

**Free from unwanted odors:** equipped with the anti-odor system, the product prevents the return of gases coming from the sewage pipes.

**Compatibility** with 40 and 50mm pipes, with or without bags.
