Pertutti Long Tap 1158

Code 00903606 - Chrome

DESCRIPTION

The main benefit of this product is the durability and resistance. With our laundry faucet, you can install it without worrying about immediate wear and tear. The design of this product was designed to provide the best experience with water. The spout design takes the water exactly to the center of the bowl and the handwheel makes the handle easier. In addition, it is a beautiful and modern product to compose any environment.

TECHNOLOGY AND CHARACTERISTICS

Bi-nickel Chrome

High durability

1/4 TURN activation

Embedded aerator

ADVANTAGES

1/4 turn taps and mixers of the line for precision and smoothness when opening and closing.

The embedded aerator, besides providing guaranteed savings on water, it is more comfortable to handle and avoids splashing, making the visual appearance of the spout cleaner.

Cartridge with ceramic seal has the main benefit of durability and safety during use. With this product, your installation has more resistance and guaranteed operation, avoiding recurring damage.

Bi-nickel chrome plated, providing long-lasting durability and higher resistance to corrosion, maintaining the product beautiful and glossy much longer.
