

DTE0040CS
Satin finish

General description

- Recessed paper towel dispenser with a minimalist and contemporary design, made entirely of AISI 304 stainless steel.
- With a maximum capacity of 800 Z-folded or 600 C-folded paper towels, this paper towel dispenser is perfect for high-traffic public toilets, such as airports, train stations, highway service areas, shopping malls, public buildings, hospitals etc.
- It can be recessed into the wall or **optionally**, it can be wall-mounted thanks to a frame, made of AISI 304 stainless steel.
- The front door has been designed to resist the impacts of heavy objects.
- Supplied with lock and a special key for opening.
- Easy to install, this paper towel dispenser is supplied with plastic plugs and screws for fastening to the wall opening.

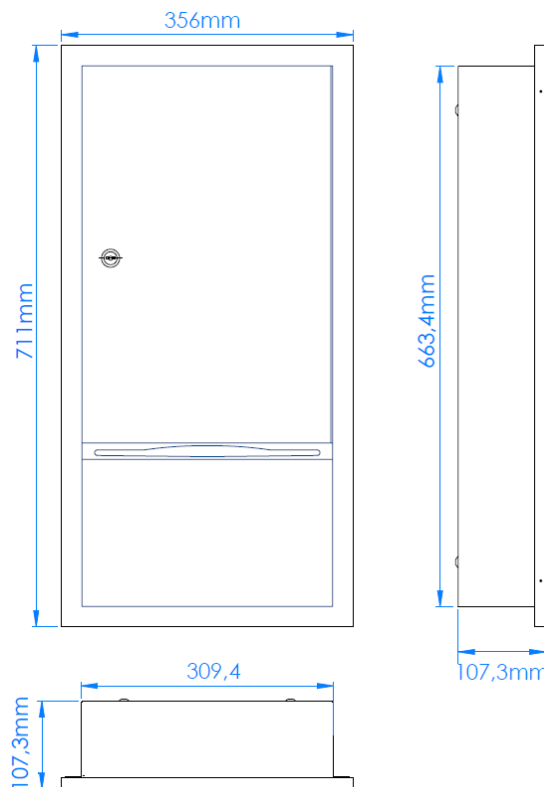

Components and materials

- **CABINET:** made of stainless steel 1.0 mm thick and satin finish on all visible parts. It is recessed in a wall opening of dimensions 665 x 310 x 105 mm and it is anchored to it by 4 holes located on the sides of the cabinet.
- **DOOR:** made of stainless steel 0.8 mm thick, satin finish. Secured to cabinet with a full-length stainless steel piano-hinge. It has a universal key lock, compatible with all Mediclinics models.
- **PAPER DISPENSER:** made of stainless steel 1.0 mm thick. It has a capacity for 800 Z-folded or 600 C-folded paper towels and does not need adapters or adjustments. The geometry of the paper outlet minimizes the tearing of paper towels.
- **OPTIONAL:** kit for wall mounting Mediclinics Part No. KT0030CS, available as an **optional accessory** that allows to convert this recessed paper towel dispenser into a wall-mounted dispenser.

Technical specifications

Dimensions	356 L x 711 H x 107,3 A
Wall opening dimensions	325 L x 676 H x 112 A mm
Door thickness	0,8 mm
Paper tower dispenser thickness	1,0 mm
Cabinet thickness	0,8 mm
Net weight	4.9 Kg
Paper dispenser capacity	600-800 u.

Dimensions

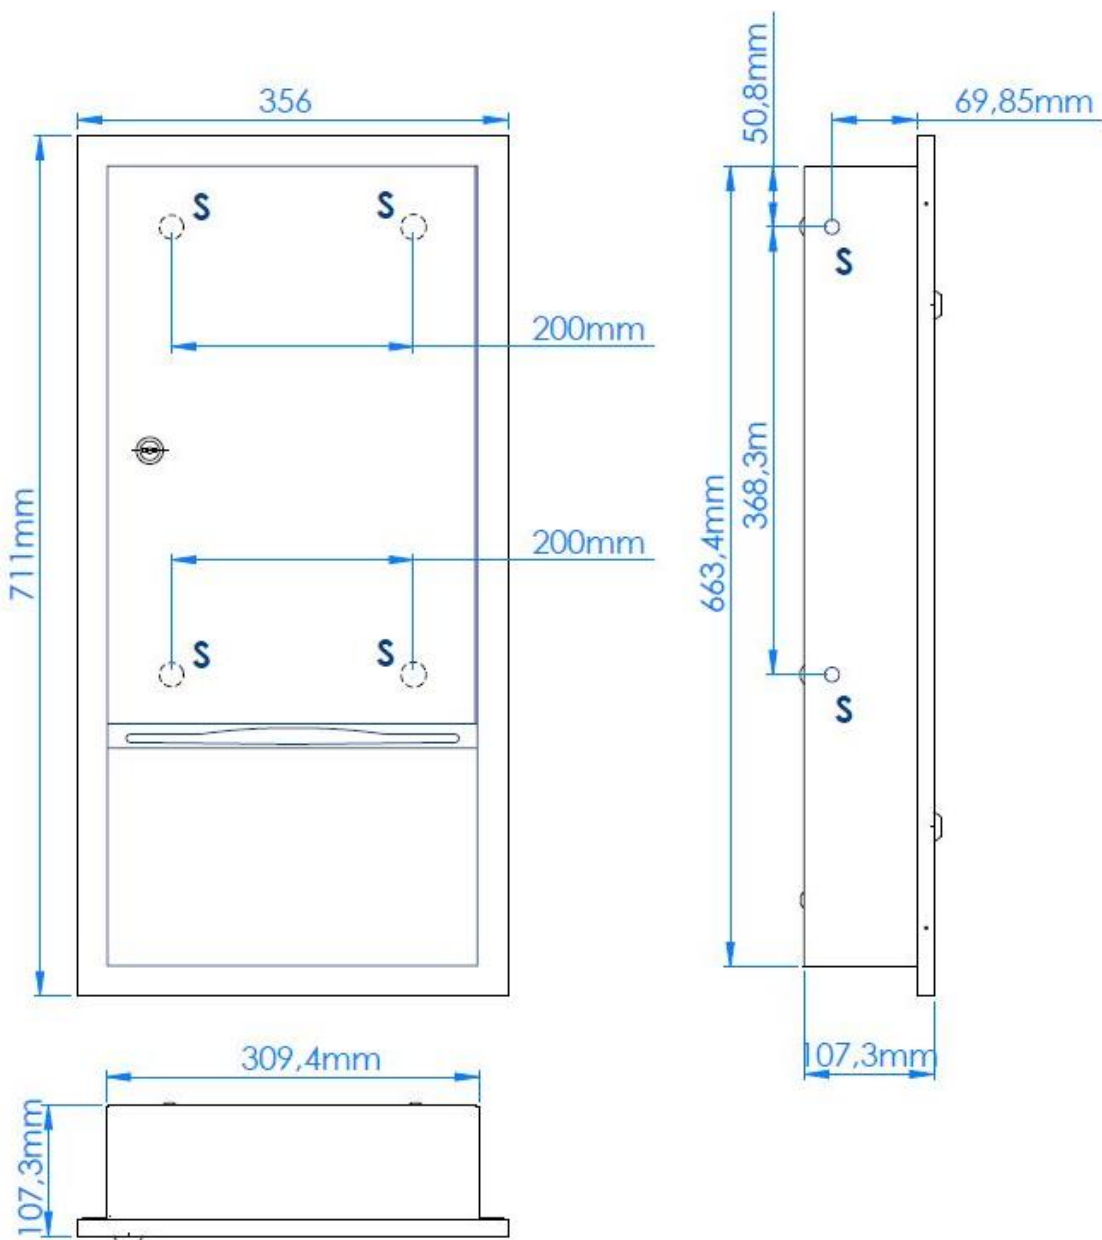

Dimensions: ± 4%

Operation

Load paper in towel tray, and then pull one sheet of paper towel.

Mounting template

Make a hole in the wall of dimensions 325 L x 676 H x 112 A mm. Place the combined unit inside the hole and fix it to the walls of the hole through the 4 holes on the back and the 4 (2 + 2) on the sides, using stainless steel screws and taking into account the distances of the indicated points by an "S" in the following figure:
